Lunch at 11:30am, talk begins at 12pm

RSVP below

The Inherent Right to Self-government: A New Context for Indigenous Innovation

Creativity in the Wake of the Tsilhqot'in Decision

Satsan is a Wet'suwet'en Hereditary Chief of the Frog Clan and has been a long-time Speaker for the Wet'suwet'en Nation, previously serving as Speaker for both the Gitksan and the Wet'suwet'en Nations. Satsan was a key figure and strategist in the landmark Delgamuukw-Gisday'wa case, heard before the Supreme Court of Canada in December 1997 and which remains a transformational decision regarding Aboriginal title and self-government in Canada.

Satsan recently served two three-year terms as the elected BC Regional Chief for the Assembly of First Nations and is currently a Senior Associate at the Centre for First Nation Governance. Satsan was also Adjunct Associate Professor in the School of Public Administration at the University of Victoria, and taught for several years in the University's Administration of Aboriginal Governments Program. He currently spends his time travelling from his home on Haida Gwaii to First Nations across British Columbia and Canada, offering his advice and assistance on the affirmation and recognition of Aboriginal rights, title and Treaty rights.
