

SUSTAINABLE PRACTICES IN THE ARTS

WHAT IS IT?

A workshop about sustainability in the arts and theatre. Discover the solutions you need to make meaningful ecological change in your organization!

You will learn new techniques in design, performance, management and fabrication, and be inspired by leading practices in the industry.

FOCUS

- Sustainable arts practices
- Solution-oriented planning
- Carbon accounting tools
- Ecological design and eco-scenography
- Eco-efficiencies
- Resource efficiency
- Networking

LED BY IAN GARRETT

Ian is a leading figure in the field of sustainability in the arts. He is an Associate Professor of Ecological Design at York University and the Director of the Centre for Sustainable Practice in the Arts; a think tank on moving arts and entertainment industry towards a more sustainable future.
