Canada Network  
Toronto

**Access to Prostate  
Cancer Medication  
Needed Now!**

Dear Minister Matthews:

As a person affected by prostate cancer, I urge the Ontario government to immediately fund Zytiga as a treatment choice for patients and their healthcare providers. An estimated 10,900 men in Ontario will be diagnosed with prostate cancer in 2012, more than any other type of cancer this year. They deserve access to all available treatment options.

Thank you for your consideration.
