

PCCN: W-W welcomes you to attend our next session with Guest Speaker Walter Eadie

Walter Eadie is the current chair of PCCN Oakville/Mississauga. Walter joined PCCN shortly after his prostatectomy in January 2011 and got involved in the group's coordinating committee two years later.

Like many of us, Walter knows more now about prostate cancer than he did when he had his operation. However, in conversations with other men, whether taking them to hospital appointments as a volunteer driver with Canadian Cancer Society or during discussion evenings at PCCN Oakville-Mississauga, it became apparent that many men had no real idea about what was happening during their treatments, especially with hormone therapy. They talked about "getting injections" or "taking a pill" but did not understand the basic "what" and "why" of their treatment.

With no experience of hormone therapy himself, Walter set to work on doing his own research and developed a "**layman's guide to hormone therapy (ADT)**" which he first presented to PCCN Oakville-Mississauga in June 2013. Walter has updated this presentation and looks forward to sharing it with PCCN Waterloo-Wellington.

This **FREE** presentation is open to ALL

DATE:

Tuesday September 22, 2015

TIME:

7:00PM – 8:30PM

LOCATION:

HopeSpring Cancer Support

16 Andrew St.

Kitchener, ON
