Prostate Cancer? - A
Debate!**

**Thursday July 29, 2021
8:00 PM - 9:30 PM ET**

For many years, urologists have argued whether Gleason 6 is really 'cancer'. Do those cells grow, spread and threaten your health??

Dr. Scott Eggener, urologist at University of Chicago Medicine argues Gleason 6 should be reclassified as 'non-cancer'.

Dr. Ming Zhou, Pathologist-in-Chief at Tufts Medical Center, Boston opposes that view, maintaining it is 'cancer'

So maybe we'll learn what 'cancer' really is!
